In the Claims:

1. - 30. (canceled)

31. (previously presented) A surface treatment composition comprising at least one surfactant and in an amount of at least 0.5% (w/v) of at least two different organic acids each present both as an organic acid and as an organic acid salt.

32. (currently amended) A composition as claimed in claim 31 ~~claim 1~~, wherein one of the organic acids or salt thereof has two or more carboxylic acid or carboxylate groups.

33. (currently amended) A composition according to claim 31 ~~claim 1~~, wherein one of the organic acids or salts thereof has two or more carboxylic acid or carboxylate groups, and the other organic acid or salt thereof has one carboxylic acid or carboxylate group.

34. (currently amended) A composition according to claim 31 ~~claim 1~~, wherein one of the one organic acids or salts thereof has one carboxylic acid or carboxylate group, being a linear or branched optionally substituted hydroxyalkyl carboxylic acid or salt or alkylmonocarboxylic acid or salt comprising 1 to 8 carbon atoms.

35. (currently amended) A composition according to claim 31 ~~claim 1~~ wherein one of the organic acids or salts thereof has two carboxylic acid or carboxylate groups and is a linear or branched, optionally substituted hydroxyalkyldicarboxylic acid or salt thereof of 2 to 10 chain carbon atoms or is a linear or branched, optionally substituted alkyldicarboxylic acid or salt thereof of 2 to 10 chain carbon atoms.

36. (currently amended) A composition according to claim 31 ~~claim 1~~ wherein one of the organic acids or salts thereof has three carboxylic acid or carboxylate groups and is a linear or branched, optionally substituted hydroxyalkyltricarboxylic acid or salt thereof of 3 to 10 chain carbon atoms or is a linear or branched, optionally substituted alkyltricarboxylic acid or salt thereof of 3 to 10 chain carbon atoms.
37. (currently amended) A composition according to claim 31 ~~claim 1~~ wherein at least one of the organic acids or salts thereof buffers the composition to a desired pH.
38. (currently amended) A composition according to claim 31 ~~claim 1~~ wherein the first acid is lactic acid, the salt of the first acid is a lactate, the second acid is citric acid, and the salt of the second acid is a citrate.
39. (currently amended) A composition according to claim 31 ~~claim 1~~ wherein the total concentration of organic acids and salts thereof present in the composition is at least 1% (w/v).
40. (currently amended) A composition according to claim 31 ~~claim 1~~ wherein the pH of the composition is no more than 6.
41. (currently amended) A composition according to claim 31 ~~claim 1~~ wherein the total concentration of surfactant(s) in the composition is at least 2% (w/v).
42. (currently amended) A composition according to claim 31 ~~claim 1~~ wherein the composition further comprises a biocidal agent.
43. (currently amended) A surface treatment composition comprising a composition according to claim 31 ~~claim 1~~.

44. (currently amended) A package comprising a container containing a composition according to claim 31 ~~claim 1~~, further comprising a restricted dispenser outlet under the control of a user.
45. (currently amended) A method of treating a surface, the method comprising the step of contacting the surface with a composition according to claim 31 ~~claim 1~~.
46. (currently amended) A method as claimed in claim 45 ~~claim 15~~ wherein the method is a method of removing dirt from a surface.
47. (currently amended) A method as claimed in claim 45 ~~claim 15~~ wherein the method is a method of removing or inhibiting microbial growth from skin or hair.
